

# Compliance Assessment

The ProductIP platform has several build-in tools that help you to assess the compliance level of the product.

We have assigned a requirement category to each requirement. The category DOC, A, B1, B2 and B3 are the requirements for which market surveillance authorities would like to see evidence. A graph gives you instant overview per category. Which requirements have been signed off, are pending, are declared Not Applicable or are still unfulfilled.

Select requirement category:

Display 100 records per page

**Requirements**

- Product Information
- Product conformity - product (0)
- Product conformity - Data (CDF) (0)
- Product identification - Declaration of Product Identity (0)
- Product identification - Declaration of Product Identity of packaging (0)

Search results:

- DOC - Declaration of Conformity
- A - Type testing - Recall and fine\*
- B1 - Production - Recall and fine\*
- B2 - Production - Sales-stop and fine\*
- B3 - Production - Warning and fine\*
- T - Transport
- C - Performance and specification
- D - Corporate responsibilities
- E - Business critical requirements
- F - Company specific requirements
- G - Guides and Test methods

## DRAFT FILES

The same status is visible in the overview of all technical files in draft status.

## FINAL FILES

These files are checked on a weekly basis. We are looking 90 days ahead and check if requirements have been modified or new ones added or if, based on meta-data, documents are no longer valid.
