

Create a Technical File. Step 1 - The Requirement list

The core of the technical file is the list of requirements. This list is build based on the following 3 elements;

- The date on which the product will be placed on the market.
- The regions / countries where the product will be placed on the market.
- The selected product itself.

We also enable you to include social accountability standards and we are continuously adding client-specific requirements

Product information

Article number: *

Name: *

Market Release Date: *

Select a region

Which region(s) is your product being exported to?

Europe (Select all - Deselect all)
