

ProductIP requirement list

The requirement list in ProductIP is an overview of references to all regulation and standards relevant for this product. The list is generated based on the result of a Q&A that defines countries / regions, market introduction date, and of course the actual product. The references are grouped per main topics / directives. References no longer valid today are indicated in red automatically.

<input type="checkbox"/>	REACH Regulation (EC) 1907/2006 (0/6)
<input type="checkbox"/>	REACH (EC) 1907/2006 - Annex II - Material Safety Data Sheets (MSDS) (2)
<input type="checkbox"/>	ED/49/2014 - REACH (EC) 1907/2006 - SVHC candidate list 16 Jun 2014 (155 substances) (1)
<input type="checkbox"/>	ED/108/2014 - REACH (EC) 1907/2006 - SVHC candidate list 17 Dec 2014 (161 substances) (1)
<input type="checkbox"/>	REACH (EC) 1907/2006 - Annex XVII plus amendments per 13 Feb 2013 (1)
<input type="checkbox"/>	REACH (EC) 1907/2006 - Annex XVII plus amendments per 27 Mar 2014 (1)
<input type="checkbox"/>	REACH (EC) 1907/2006 - Annex XVII plus amendments per 09 May 2014 (1)

Each reference has an flag indicating if it is based on EU or National regulation

- DOC - Declaration of Conformity
- A - Type testing - Recall and fine*
- B1 - Production - Recall and fine*
- B2 - Production - Sales-stop and fine*
- B3 - Production - Warning and fine*
- T - Transport
- C - Performance and specification
- D - Corporate responsibilities
- E - Business critical requirements
- F - Company specific requirements
- G - Guides and Test methods

We have categorised all references. DoC, A, B1, B2 and B3 are the requirements that a market surveillance authority would expect to find in technical files when performing an audit.

Sign off requirements with test reports, certificates, Bill Of Materials, declarations, and more. 4 different levels of signing off give you an instant overview of progress, and risk

The requirement list provides ProductIP Compliance Clips, templates, websites, all in the context of the requirement. ProductIP does NOT provide access to standards as these are distributed via other, paid, channels
